## POSE ONE TWS

-

Pose is born 1972 in Switzerland. He is a street artist who has developed his very own style, inspired during countless trips within Europe as writer and longer stays in the US, Mexico, Argentina, Thailand and Cuba.

His spray cans release not just color but life in the shape of these lively and vivacious beings that Breu affectionately calls “my people” who were born 1996.

They are bursting with the joys of life and war, mourning as well as anger and pain, but deep down Pose’s people are happy souls - lively, inquisitive and genuine.

He’s had several exhibitions in Europe and the US.
